Profile

Enthusiastic programmer with a strong foundation in C and a growing proficiency in web development technologies. Eager to leverage my skills to contribute to innovative projects and expand my expertise in the field. Passionate about learning and embracing new challenges.

Skills

- C programming
- OPDS with c++
- Python
- HTML, CSS
- JavaScript
- DBMS with MySQL

Education

B-TECH Computer Science Engineering,
SRM AP

2022 Oct – present

Higher Secondary Education, Sri Chaitanya

2020 May – 2022 Apr

Projects

Currency Converter:

Develop a currency converter that allows users to input an amount in one currency and convert it to another. Use HTML, CSS, and JavaScript for the frontend.

Bus-Reservation-System

This is a basic console interactive program for bus reservation over both admin and user side. This Project was built with the knowledge of principles of c++.

Professional Experience

Technical Assist

Kaycee Enterprises

Visakhapatnam, India

As a technical assistant, I managed stock flow using software tools, processed orders, monitored levels, analyzed data, ensured quality control, and coordinated with teams for efficient operations.

Certification

NPTEL E-Business, IIT Kharagpur

NPTEL The Joy of Computing Using Python,
IIT Ropar
